As a third-year Software Technology student at UEF, I aim to become a Java Backend intern specializing in Spring Boot. I focus on system optimization, security, and database management, contributing to real projects and learning from colleagues.

SKILLS

- Databases:** MySQL, SQL Server.
- Programming Languages:** Java.
- Frameworks and Technologies:** Spring Boot (Spring Core, Spring MVC, Spring Data JPA, Spring Security, Thymeleaf), Hibernate, JPA Repository, JSP Servlet.
- Architectures:** ORM (Hibernate), MVC (Spring MVC).
- Tools:** Maven, Git, GitHub, Postman.
- API:** RESTful API.
- Frontend:** HTML, CSS, JavaScript, Bootstrap 5, Thymeleaf.
- Languages:** English (ability to read, understand documents, communicate well).

PROJECTS

NOTE MANAGEMENT SYSTEM 

May 2024 - Jul 2024

Developed the backend for a web application to manage personal and group notes, including user and group management, 2FA authentication, real-time notifications, automated email sending, avatar storage, data export to Excel, and scheduled cleanup of invalid tokens. The system also supports password recovery via email, account activation, and trash management for deleted notes. Completed on schedule, deployed quickly, and received positive feedback.

CERTIFICATIONS

Java Backend programming certificate by Code Gym Center

Jan 2024

Certificates of Java and Spring Boot courses by Udemy

Jul 2023

EDUCATION

Software technology

Sep 2021 - Sep 2025

University of Economics and Finance (UEF)

Completed advanced courses in Java programming, data structures and database management. Built a fully featured note-taking web system for users and admins.
