Energetic and detail-oriented third-year Software Technology student at UEF, specializing in Java Backend development with a focus on Spring Boot. Proven ability to develop robust backend systems, manage databases, and ensure system security. Seeking an internship opportunity to apply my skills and gain further industry experience.

EDUCATION

Software technology   **Sep 2021 - Sep 2025**
University of Economics and Finance (UEF)
> Completed advanced courses in Java programming, data structures and database management. Built a fully featured note-taking web system for users and admins.

SKILLS

Databases: MySQL, SQL Server.

Programming Languages: Java.

Frameworks and Technologies: Spring Boot (Spring Core, Spring MVC, Spring Data JPA, Spring Security, Thymeleaf), Hibernate, JPA Repository, JSP Servlet.

Architectures: ORM (Hibernate), MVC (Spring MVC).

Tools: Maven, Git, GitHub, Postman.

API: RESTful API.

Frontend: HTML, CSS, JavaScript, Bootstrap 5, Thymeleaf.

Languages: English (ability to read, understand documents, communicate well).

PROJECTS

NOTE MANAGEMENT SYSTEM ⬈   **May 2024 - Jul 2024**
> Developed the backend for a web application to manage personal and group notes, including user and group management, 2FA authentication, real-time notifications, automated email sending, avatar storage, data export to Excel, and scheduled cleanup of invalid tokens. The system also supports password recovery via email, account activation, and trash management for deleted notes. Completed on schedule, deployed quickly, and received positive feedback.
